

Forecast For Wales
Issued by Met Office Exeter
at 1600 on Thursday 16 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry at first but turning damp on Friday.

This Evening and Tonight:
A largely clear and sunny evening, with cloud gradually thickening from the southwest overnight. Staying dry, with the clearest skies in the east, bringing the odd fog patch here. Becoming breezy along exposed western coasts. Minimum temperature 9 deg C (48 deg F).

Friday:
Often quite cloudy, but some bright or occasional sunny spells, lasting longest further east. Thicker cloud moving northeast brings rain to southern and western areas later. Hill fog returning overnight. Maximum temperature 20 deg C (68 deg F).

Outlook for Saturday to Monday:
Cloudy with showers over the weekend, heavy at times, on Sunday, though the odd sunny spell is still possible. Generally drier on Monday with a bit more brightness on offer.
